

Notes from Great Waters

April 2023 | Entertaining the Lakes Region

Great Waters Welcomes Joan Myers as Executive Director

Great Waters is thrilled to announce Joan Myers as the new Executive Director of Great Waters, effective April 1st of this year. Joan has served as a Board Member of Great Waters for the past several months. She brings a lifetime of experience working in non-profit fundraising, communications, marketing and organizational development for independent schools in New Jersey. She and her husband Tom Boyer have been coming to Great Waters' concerts since the early days by the lake at Brewster Academy, and she has been a great friend to Great Waters at the new Concerts in the Clouds at the Castle in the Clouds. Joan says that "Music has always lifted my spirits, allowed me to reminisce about past times, and feel closer to the community we now call home."

Of her new role at Great Waters, Joan says she will be "focusing on the financial sustainability of the organization, and I'll also enthusiastically spread the good news of why supporting Great Waters is important for all of us. Whether you attend the summer concerts, support the scholarship funds offered to deserving students, or find joy in the colorful pianos played by young and old throughout the town, Great Waters is an important cultural asset that is deserving of all of our support."

Joan and her husband Tom Boyer make their home in the Cedar Cove community of East Alton. Great Waters is so very fortunate to welcome Joan Myers as the new Executive Director of our organization.

Congratulations Joan!
